Here is the fashionable promenade and many of the fashionable shops. Crescent City seems to be the appropriate home of the Opera and the Drama. While we were there, two Opera Houses, two Theatres, the Campbell Minstrels, the wonderful blind negro fiddler, and other entertainments attracted and divided the public patronage; yet all appeared to be doing well. At the new Opera House we saw a brilliant speciacle. It was a Fancy Dress Bail, given by the Chasseurs a Pied, a crack military company of New Orleans, on the birth-night of St. Charles and Camp streets, which nearly John C. Calhoun. Your dispatch will reach me here. Respectfully, R. D. Minor, Lt. U. S. Navy, Commanding prize steamer Gen. Miramon. Slorne additional intelligence was received to-day from Liautemant Chapman, who had reached New Orleans in one of the captured steamers, as hearer of despatches to our gov-ernment. I will be in Washington as soon as possible. The engine of the vessel commanded by me troke down at sea. By order of Captain Jarvis I am directed to say the ships at Vera Cruz are very short of provisione, partioularly bread. It is impudent for any of them to leave Vera Cruz at this time in the present state of feeling.

It appears that Captain Jarvis in this affair acted without any instructions from this Government. They had, however, sent out instructions by Minister Mediane, and to the Commander of the Gulf Squadron, that in case an attempt was made by Miramon's vessels to bleckade Vera Cruz, or any of the ports in the Gulf, to resist them at all hazports in the Gulf, to resist them at all haz-

The meeting then adjourned. C. CAVERNO, Secretary. Dated March 23, 1860.

LECTURE BY BISHON SIMPSON .- We see it announced in the evening papers that this eloquent man is to deliver a lecture at Albany Hall for the benefit of the Summerfield M. E. Church. The Wisconsin announces it for Monday (this evening,) and the Free Democrat for Tuesday. As no official notice has been given us, we are unable to say which is right. The lecture, whenever it takes place will be worth hearing. Bishop Simpson i justly estimated one of the most eloquent and forcible speakers in the M. E. Church.

EXPUBLICAT NOMINATIONS.

FOR CHIEF JUSTICE OF THE SUPREME COURT A. SCOTT BLOAM. REPUBLICAN CITY TICKET. FOR MAYOR, OTIS H. WALDO. FOR COMPTROLLER, CICERO COMSTOCK. FOR THEASCRER, FOR CITY ATTORNEY, MALBERT E. PAINE.

The Republican City Ticket. The Republican Convention which met on Saturday, to nominate candidates for city officers, was the best assemblage of the kind

we have ever seen in Milwaukee. Every Warl was fully represented by well-known and responsible men. The proceedings of the Convention were entirely harmonious, and the spirit enthusiastic. The ticket is in all respects, unexceptionable. The candidated are personally known to almost every reader of the SENTINEL. They are gentlemen of unquestioned integrity, of conceded stillity, and of tried experience. No man can doubt that in their hands the interests and the credit of our city would be perfectly

That their election is certain, we do not pretend to claim. It may be that party ties are still sufficiently strong to induce a majority of the electors of this city to try, for yet another year, the costly experiment of Demogratic rule. But our hope and belief are that, having had quite enough of that expensive luxury, the people are prepared for a change; and that our merchants, tax-payers, property-holders, mechanics and working men, and all, indeed, who have really at heart the best interests of Milwaukee, will cordially unite in the support of the R-publican City Ticket. However that may be, the duty of our Republican friends is at least clear and unmislakeable. Having put in nomination what is admitted, on all hands, to be the best ticket, as a whole, ever presented for the suffrages of the electors of Milwankee, it becomes us, one and all, to give our best efforts and energies to ensure its success. Let us then devote ourselves to the good work during the brief week that intervenes before the Charter

If the Republicans of Milwaukee are carnest in their determination to redeem the city government and, if possible, restore our municipal credit and lighten the burden of taxthe official journal. It will interest Milwauation, they must take hold of the work with a will. We have been so long and so largely in the minority in this city, that our friends are accustomed to speak of success as impossible. But all things are possible for those who labor in the right spirit to command spirited proceedings at the several Republican cancuses Friday night, are bright mens of victory. But we must not be content with these indications merely. A thorough and effected organization is imperatively necessary. We must know upon whom we can rely to help us lift our municipal government out of the slough of extravagance and corruption into which the melfessance and mismanagement of Democratic officials have plunged it. Every Ward should be promptly canvassed. Vigilance committees should be selected who will do their duty faithfully. Our business men and tax-payers should be personally seen and urged to give a few hours, if not a few days, to the good work.

this enough for us to know that a wide difference of opinion, both as to have and facts exists between the Governor and the company, and your committee hold that it is not the province of the Legislature, one of the contracting parties, to determine these important questions. We believe it to be a well settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a settled principle of law, that a party to a contract cannot claim a forfeiture when he has not only failed to perform on his part, but when such failure may have been the means of preventing the other party from performing on his part. The rules of law and common honesty which control individuals in their private transactions, should not be disregarded by the Legislature—but a sense of honor, and a regard for the reputation of the State, should impel the Legislature to exercise such powers as are claimed by this bill, with extreme delicacy and caution.

This bill proposes that the Legislature to shall decide and determine all questons in controversy between the State and the Lag.

Uroses and Milwaukee Railroad Company, and all other parties interested in the land of course, without asking them to show cause various incidents of the trip. The following proceedings took place in the Illineis Central cars, while the party were on their way home:

At a meeting of Excursionists from Chicago, Detroit and Milwankee to New Orleans, held on their homeward trip, Thursday, March 22d, the Hon, J. C. Halfiss, Mayor of Chicago, was called to the Chair, and T. W. Wassword, of Chicago, appointed Scerelary.

On motion, Gen. Revea Edward of Milwanker, Col. A. S. Williams, of Detroit, and Mr. Hisos, of Chicago, were appointed a Committee to draft and report suitable resolutions, in reference to the excursion. The Committee presented the following resolutions for the consideration of the meeting:

\*\*Resolved\*\*. That our hearty thanks are hereby tendered to the Officers and Agents of the Himois Centrel, wholike & Ohlo, Mississippi Lentral, and New Orleans, Jackson & Great Northern B. R. Companies, and to Captain Lattrians, of the Mississippi steamer Checky, for numerous courtesies extended to us on our trip to and from New Drienna.

in their private transactions, should not be disregarded by the Logislature—but a sense of honor, and a regard for the reputation of the State, should impel the Legislature to the State, should impel the Legislature to the State and the Lagislature to bill, with extreme delicacy and caution.

This bill proposes that the Legislature is shall decide and determine all questions in controversy between the State and the Lagislature and all other parties interested in the land through their rights under the grant declared for feited.

It may be said that the bill recognizes the rights of the company so far as they have become vested.

It may be said that the bill recognizes the rights of the company so far as they have become vested.

Who is to determine what those rights are? The Legislature, the La Crosse and Milwankee Rulfroad Company, or the new companies to whom the grant is proposed to be given? Which of these parties is to decemine whether the La Crosse and Milwankee Rulfroad Company for its remine whether the La Crosse and Milwankee Rulfroad Company is the country; and, considering the magnitude of the questions and interests and jeal-ousies arise to affect the judgments of members. A brief reference to the condition of the La Crosse and Milwankee Rulfroad Company has lost or abandoned any of its rights?

These are the questions, which, in the opinion of your committee, can only be determined by the proper judicial tribunals of the country; and, considering the magnitude of the questions and interests and jeal-ousies arise to affect the judgments of members. A brief reference to the condition of the La Crosse and Milwankee Rulfroad Company may be necessary, to show, in addition to the reasons urged, why the Legislature, where so hamy local interests and jeal-ousies arise to affect the judgments of members. A brief reference to the condition of the Carosse and Milwankee Rulfroad Company may be necessary, to show, in addition to the reasons urged, why the Legislature, should not pass the bill. There are not a few popular opinions in regard to which it is useful at times to ask a regard to which it is useful at times to ask a question or two. Lake Nyassa, the source of the River Shire, and, what is of greater importance, have discovered a great cotton-growing and cotton-manufacturing country. The cotton is of two kinds, native and foreign. The native is short in the staple, and feels more like wool than cotton. The foreign appears to be of good quality, with a staple three-fourths of an inch to an inch in light. It is perennial and requires planting only once in three years, while the native has to be planted annually in the highlands, yet the people prefer the latter, because they say it makes the stronger cloth. This vast cotton region is easily accessible. The Shire joins the Zambesi about 100 miles from the sea, below the difficult parts of the latter river; and for 112 miles the Shire has a deep channel, the river being from 150 to 200 yards wide. 112 miles from its mouth, the extaracts commence (latter from its mouth, the extaracts commence (latter file of the latter file of the la
